

## ACT PROMPTLY.

Kidney troubles are too dangerous to neglect. Little disorders grow serious and the sufferer is soon in the grasp of diabetes, dropsy or fatal Bright's disease.

Doan's Kidney Pills cure all distressing kidney ills. They make sick kidneys well, weak kidneys strong.

E. C. McClanahan, Market St., New Richmond, O., says: "Kidney disease had almost brought me to my grave. I was rendered almost helpless and suffered agony. My feet were so badly swollen I could not walk. The kidney secretions were thick and painful in voiding. I doctored but steadily grew weaker. I then used Doan's Kidney Pills and gradually improved. They saved my life."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## MEAN INSINUATION.

Miss Lively—Isn't it strange that baseball players are seldom sun-struck?

Mr. Fuss—Not necessarily. Sunstroke is an affection of the brain.

## WASTED A FORTUNE ON SKIN TROUBLE

"I began to have an itching over my whole body about seven years ago and this settled in my limbs, from the knee to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there, I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. When I showed my foot to my friends they would get really frightened. I did not know what to do. I was so sick and had become so nervous that I positively lost all hope."

"I had seen the advertisement of the Cuticura Remedies a great many times, but could not make up my mind to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies and I tell you that I was never so pleased as when I noticed that, after having used two sets of Cuticura Soap, Cuticura Ointment and Cuticura Pills, the entire inflammation had gone. I was completely cured. I should be only too glad if people with similar disease would come to me and find out the truth. I would only recommend them to use Cuticura. Mrs. Bertha Sachs, 1621 Second Ave., New York, N. Y., Aug. 20, 1909."

"Mrs. Bertha Sachs is my sister-in-law and I know well how she suffered and was cured by Cuticura Remedies after many other treatments failed. Morris Sachs, 321 E. 89th St., New York, N. Y., Secretary of Deutsch-Ostrower Unt-Verein, Kemper Hebrew Benevolent Society, etc."

## Trouble in the Troupe.

"They've had a frightful time in the No. 5 Tom Company. Hear about it?"

"Nope."

"Busted an' walkin' back. That's right. Went to smash on the Vincennes circuit. Utility feller they picked up at Sawville got mad 'cause he was doubled as Marks an' a bloodhound, an' sawed the legs off the ladder, an' Eva fell out o' heaven an' landed on Papa St. Clair, an' Simon Legree landed on Uncle Tom, an' the real dog bit a hole in Aunt Ophelia, an' there was merry hades to pay until the local manager called the patrol wagon and had the whole bunch dragged up the pike and dumped in the woods. An' the worst of it was there was a record house, with nineteen good dollars in the box!"

## Simple Expedient.

An American student at a German university tells of a professor who was reading aloud in a classroom papers on a celebrated living German novelist, which had been written by the members of the class. After reading one he commented upon its excellence. "You show an exact comprehension of the matter," he said, addressing the student who had written the paper; "tell us what method you used." "Oh," replied the student, "I just wrote to X—, stating what I wanted to know, and that was what he sent back."

Cheerfulness should be the gift of the sunlight, the air should suffice for inspiration, and radiance of wisdom in the lovely waste of the pine woods, making us dance and run about happily like children.—Emerson.

## CORPORATION NOT NEW IDEA

Long Known, Though Their Formation Was Not Popular Until About Fifty Years Ago.

The corporation in business is no modern institution. The Romans formed ecclesiastical corporations, and the idea was carried to England, where the instrument which created the corporation was originally granted by the king. Later it was granted by acts of parliament, a separate charter act for each charter.

In America the state constitutions require that in all possible cases the legislative body pass general acts whereby, by simply filing a prescribed instrument, persons may form a corporation without applying to the legislature for permission. The state creates the corporation, which possesses powers only such as the state permits.

The Dutch East India company, organized in 1602, was the first great joint stock company whose shares were bought and sold. The first record of a corporation in America was in the colonial times, when the colony of Connecticut in 1731 chartered the London Society for Trade and Commerce. In 1795 the Connecticut Land company was organized and dissolved in 1809.

The formation of corporations was not popular until the middle of the nineteenth century; in fact, but few were organized until fifty years ago. The modern corporation having stock and stockholders came into general prominence since the days of Blackstone and Kent and can only be governed by modern laws. Today the corporation is an absolutely necessary form of business organization, and its use is constantly increasing and extending.

There are but two forms of business combinations available for the conduct of a commercial enterprise, namely, partnership and a corporation. The one is easily entered into and as easily dissolved; the other is formal and permanent.—National Magazine.

## She Bored Him.

The opening day of the exposition brought many street beggars to the city. At the corner of the Federal building sat an old man blind and minus one leg. While the parade was passing a sympathetic lady stopped and gazed at him in pity.

Finally she approached him and began asking him questions. She asked him if he were married, how many children he had, where he had worked last, how he had met with the accident that had incapacitated him for work, and a thousand other questions.

Finally the unfortunate one became peevish. "Madam," he exclaimed, harshly, "you may think this is an information bureau. It is not; it is a collecting agency."—Cincinnati Commercial Tribune.

## Overruled.

"My client admits that he tried to steal the policeman's uniform, but he was insane at the time."

"That plea might have been all right," responded the court, gravely, "if the policeman had been in the uniform. Thirty days."

## Earned a Place.

"What is the name of your new novel?"

"The Dungeon." Good, gloomy title, eh?"

"Yes. That name alone ought to get the book among the six best sellers."

## Early Rising.

Mix—I've never seen any one so ridiculously enthusiastic in regard to early rising as Skinner is.

Mixer—Neither have I. Did you know he has put alarm clocks in his chicken house and stable?

## Happy Medium.

Jack—Trackleigh divides his time between work and play.

Tom—He does, eh?

Jack—Yes; works his friends in the forenoon and plays the races in the afternoon.

## WHY NEW ORLEANS

CITY IS LOGICAL POINT FOR WORLD'S PANAMA EXPOSITION.

Its Geographical Position and Many Other Considerations Mark it as Most Suitable Spot for Dedication of Great Work.

Public sentiment has decided that the completion of the Panama Canal in 1915 shall be celebrated with a great International Exposition in which all the nations of the world may participate; and the question of where this Exposition is to be held will be settled by Congress at its approaching session.

New Orleans and San Francisco are contending for the honor of holding this Exposition, and both cities have guaranteed immense sums of money as an evidence of their ability to finance so great an enterprise.

An Exposition worthy of the term "World's Fair," such as New Orleans proposes to build, will be a great educational movement. Its success as such, however, will depend entirely upon the percentage of our population who can secure its educational advantages, this in turn, depends upon its location, as the time in traveling to and from the Exposition, and the cost in railroad and Pullman fares, are the most important factors.

Considering these matters, New Orleans' claims to being the "Logical Point" for this Panama Exposition, seem to be fully substantiated by the following facts:—

New Orleans is 500 miles from the center of population in the United States. San Francisco is 2,500 miles distant therefrom.

Within a radius of 500 miles from New Orleans there are 17,500,000 people. Within the same radius from San Francisco there are only 2,000,000.

Within a radius of 1,000 miles from New Orleans, there are 65,000,000. Within the same radius from San Francisco there are only 6,000,000.

At an average of 900 miles from New Orleans, there are 70 of our principal cities with a combined population of 20,000,000. Averaging 900 miles from San Francisco there are only 8 large cities, with a combined population of just 1,000,000. The average distance of all these cities to New Orleans is 792 miles,—to San Francisco 2,407 miles.

Over 75 per cent. of the people of the United States could go to an Exposition there at an average expense for railroad fare of \$12.50, as against an average of \$37.50 to the Pacific Coast; and for several millions of our people, the Pullman fare and Dining Car expenses alone, for a trip to San Francisco, would amount to more than all their transportation expenses for a trip to New Orleans.

This is an important public question to be settled by Congress at the session which convenes in December.

Many of our readers will wish to visit this World's Panama Exposition, and if held in New Orleans a great many more could spare the time and money for the trip, than could go to San Francisco. Therefore, we urge our readers to write to the two senators from this State and the congressman from this district, requesting them to support New Orleans in the contest.

## Childish Reasoning.

"Look at the brownies, papa!" exclaimed a little miss as she gazed upward at a Wall street skyscraper. "They are not brownies, dearie," replied papa. "They are big men, like me, but they look so tiny because they are so high."

"If they were twice as high, would they look twice as small?" she asked, showing the mathematical turn not unnatural in the offspring of a successful broker.

Papa answered "Yes." She made a quick calculation and remarked: "They won't amount to much when they get to heaven, will they?"

## Telephonic Reply.

The elderly stranger, by invitation of the superintendent, was addressing the Sunday school.

"How many can tell me," he asked, "which is the longest chapter in the Bible?"

Many hands went up. "This little boy may answer," he said, pointing his finger at an urchin in one of the seats near the front. "Which is the longest chapter in the Bible?"

"Palm double one nine!" shouted Tommy Tucker.

Reggy—We have been insulted. The other day the firemen rescued us fellows from the burning clubhouse, and now the reporters have the account headed, "A Few Things Saved, but Nothing of Value."

## Mrs. Briggs' Speech.

If brevity is the soul of wit, one of the wittiest speeches on record was made by a woman. Mrs. Briggs lived in the northern part of Indiana, a long distance from any village. Hearing that the Rev. Mr. Goodwin was to preach in a township some twenty miles distant, she resolved to be present, and as no other way offered, she walked the twenty miles.

The pastor heard of this, and was so pleased at the appreciation which it showed that at the close of the sermon he mentioned the fact to the congregation, and called upon Mrs. Briggs to tell them how she came.

Rising slowly, she looked over the audience with great solemnity, and said:

"I hoofed it."

Then she sat down again.—Youth's Companion.

## He Came by It Honestly.

"Lend me your pencil, Johnny." The small boy handed it over and teacher continued to correct the exercises of the class. When she finished she suffered a sudden lapse of memory and laid the pencil away in her desk. As she stood up to excuse the class she encountered the scornful gaze of Johnny's eyes. Rising in his seat he fixed her with an accusing forefinger and uttered the single word "Graft!" Johnny's father writes for a current magazine.

## No One Else Ever Dared Guarantee Shoes!

Our Plan Shatters the System That Robs the Public of \$5,000,000 a Year

Never before have shoes been sold on a SIX MONTHS' guarantee or any OTHER kind of a WRITTEN GUARANTEE. We are the FIRST and ONLY manufacturers that were ever ABLE to make a popular priced shoe GOOD ENOUGH to guarantee. Simply because we are the ONLY manufacturers who have done away with high salaried traveling men and their big expenses—the ONLY manufacturers who sell direct to the dealer by letter for only the cost of the stamps.

It costs the shoe manufacturers of this country over \$5,000,000 a year for traveling men's salaries, hotel bills, railroad fares and other selling expenses. Every cent of this is paid by you shoe buyers. You pay fully one-fifth more than the actual value of every pair of shoes you buy to HELP the shoe manufacturers KEEP ON paying these big expenses and salaries.

Our immense saving on selling expense goes into leather that others can't afford. Our Swiss Sole is a year for traveling men's salaries, hotel bills, railroad fares and other selling expenses. Every cent of this is paid by you shoe buyers. You pay fully one-fifth more than the actual value of every pair of shoes you buy to HELP the shoe manufacturers KEEP ON paying these big expenses and salaries.

Stylish—Light—Wear—These shoes combine style, finish and quality in a degree never before equaled in a shoe selling at anywhere near the price.
